7/5/22

CAMBRIDGE, Mass., July 05, 2022 (GLOBE NEWSWIRE) -- Sarepta Therapeutics, Inc. (NASDAQ:SRPT), the leader in precision genetic medicine for rare diseases, today announced that on Wednesday, July 6, 2022 at 8:30am Eastern Time, the Company will host a webcast and conference call to share new functional data across multiple studies from the clinical development program for SRP-9001 (delandistrogene moxeparvovec) for the treatment of Duchenne muscular dystrophy. The Company also plans to present an integrated analysis of one-year functional data from Studies 101, 102 and 103 for all participants that received the target dose of SRP-9001 compared to a propensity-weighted external control group. SRP-9001 is an investigational gene therapy for Duchenne being developed in partnership with Roche.

The presentation will be webcast live under the investor relations section of Sarepta's website at <https://investorrelations.sarepta.com/events-presentations> and following the event a replay will be archived there for one year. This event will include a slide presentation and participants are encouraged to view the event via the webcast link. Interested parties may also participate by phone by registering using [this online form](#). After registering for dial-in details, all phone participants will receive an auto-generated e-mail containing a link to the dial-in number along with a personal PIN number to use to access the event by phone.

### ***About Sarepta Therapeutics***

Sarepta is on an urgent mission: engineer precision genetic medicine for rare diseases that devastate lives and cut futures short. We hold leadership positions in Duchenne muscular dystrophy (DMD) and limb-girdle muscular dystrophies (LGMDs), and we currently have more than 40 programs in various stages of development. Our vast pipeline is driven by our multi-platform Precision Genetic Medicine Engine in gene therapy, RNA, and gene editing.
